

Using Opportunities

The **Opportunities** module in ResellPortal CRM is designed to help you manage and track potential revenue-generating deals. Opportunities represent sales prospects that you're actively working on, allowing you to monitor progress, forecast revenue, and prioritize efforts effectively. This guide will walk you through the features and best practices for using the Opportunities module.

1. Navigating to the Opportunities Module

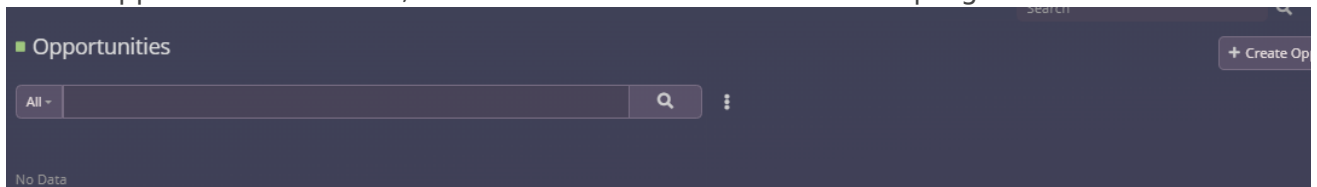

1. Log in to your ResellPortal CRM dashboard.
2. Locate the main navigation menu on the left-hand side.
3. Click on **Opportunities** to access the module.

You'll see a list view displaying all existing opportunities, including their names, stages, and expected close dates.

2. Creating a New Opportunity

To add a new opportunity:

1. **Click the "Create" Button:**
 - In the Opportunities module, click the **+ Create** button at the top-right corner.

2. **Fill Out Opportunity Details:**
 - **Opportunity Name** (Required): Provide a descriptive name for the opportunity.
 - **Account**: Link the opportunity to an existing account.
 - **Expected Close Date**: Specify the anticipated date for closing the deal.
 - **Stage**: Select the current stage of the sales process (e.g., Prospecting, Negotiation, Closed-Won, Closed-Lost).
 - **Probability**: Enter the potential revenue value for this opportunity.
 - **Assigned User**: Designate a team member responsible for managing the opportunity.
3. **Add Additional Information:**
 - Include notes about the opportunity's background, client requirements, or key stakeholders. in the **description** field.
4. **Save the Opportunity:**
 - Click the **Save** button to store the new opportunity.

4. Tracking Progress Through Sales Stages

The Opportunities module uses stages to track where each deal stands in the sales pipeline. Common stages include:

1. **Prospecting**: Initial contact or discovery phase.
2. **Qualification**: Assessing the lead's needs and fit.
3. **Proposal**: Presenting solutions or quotes.
4. **Negotiation**: Finalizing terms and addressing objections.
5. **Closed-Won**: Successfully closed deals.

6. **Closed-Lost:** Opportunities that did not result in a sale.

The screenshot shows the Salesforce interface for an Opportunity record named 'ran'. At the top, there are buttons for 'Save', 'Cancel', and a menu icon. Below these, the 'Name' field is populated with 'ran'. The 'Stage' dropdown menu is open, showing a list of stages: 'Prospecting' (highlighted), 'Qualification', 'Proposal', 'Negotiation', 'Closed Won', and 'Closed Lost'. The 'Description' field is partially visible at the bottom.

To update the stage:

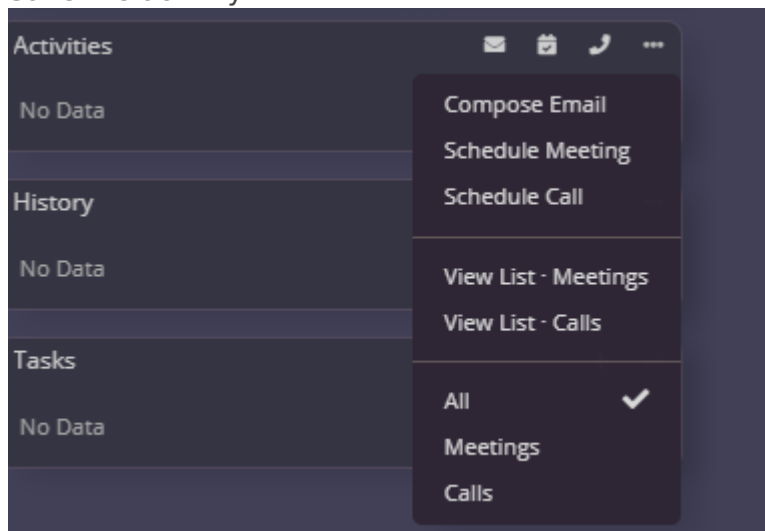

1. Open the opportunity record.
2. Select the new stage from the **Stage** dropdown.
3. Save your changes.

5. Adding Activities and Notes

Keep a detailed record of all interactions and activities related to each opportunity:

1. Adding Activities:

- In the opportunity record, locate the **Activities** subpanel.
- Click **+ Create** to schedule tasks, calls, or meetings.
- Enter details like date, time, and description.
- Save the activity.

The screenshot shows the 'Activities' subpanel in Salesforce. It has sections for 'No Data', 'History', 'No Data', and 'Tasks'. A dropdown menu is open, showing options: 'Compose Email', 'Schedule Meeting', 'Schedule Call', 'View List - Meetings', 'View List - Calls', 'All' (selected with a checkmark), 'Meetings', and 'Calls'.

6. Searching and Filtering Opportunities

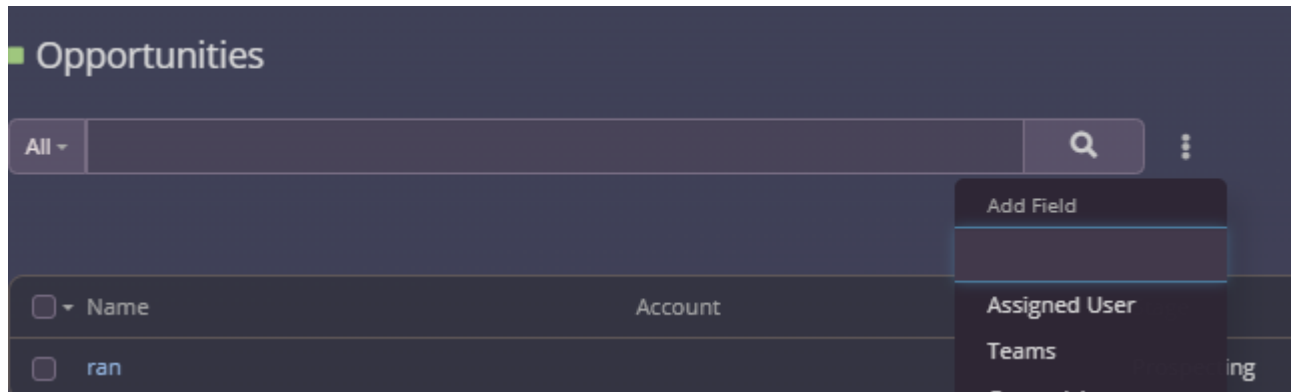

Quickly locate specific opportunities using the search and filter options:

1. Search Bar:

- Use the search bar at the top of the Opportunities list to find an opportunity by name, account, or stage.

2. Filters:

- Click the **Filters** button to apply criteria such as expected close date, assigned user, or amount.

7. Closing Opportunities

When an opportunity reaches its conclusion, mark it as either "Closed-Won" or "Closed-Lost":

1. Open the opportunity record.
2. Update the **Stage** field to "Closed-Won" or "Closed-Lost." s shown above point 4.
3. Add a note explaining the outcome (e.g., reasons for loss or feedback from the client).
4. Save the record.

8. Best Practices for Managing Opportunities

- **Prioritize High-Value Deals:** Focus on opportunities with the highest potential revenue or strategic importance.
- **Regularly Update Stages:** Keep pipeline stages current to ensure accurate forecasting.
- **Collaborate:** Use the "Assigned User" field to delegate opportunities effectively and maintain accountability.
- **Leverage Insights:** Use reporting tools to identify trends and refine your sales strategies.
- **Automate Follow-Ups:** Set reminders and workflows to ensure consistent communication with prospects.

By mastering the Opportunities module, you can streamline your sales process, improve forecasting accuracy, and close more deals. For further assistance, reach out to our support team or explore the full ResellPortal CRM documentation.
